

# Curriculum vitae

Éva Szakács

## Qualifications:

Biologist, Eötvös Loránd University, Budapest, 1985

## Academic Degree:

Candidate of Agricultural Sciences, Scientific Qualification Committee of the Hungarian Academy of Sciences (MTA), 1994

## Research fields:

Wheat pre-breeding, gene transfer from wild and cultivated *Secale* species, molecular cytogenetics, fluorescence microscopy and image processing, molecular genetics, field experiments, rust disease resistance testing, statistical analyses

## Memberships:

Memberships and positions held in MTA boards:

- Plant Breeding Committee, Hungarian Academy of Sciences (member with voting rights, 2021-)
- Veszprém Academic Committee of MTA, Biotechnology Working Committee (chairman, 2020-2023)
- Veszprém Academic Committee of MTA, Biotechnology Working Committee (secretary, 2017-2020)

Memberships and positions held in national and international organizations:

- EUCARPIA (member, 2016-)
- Association of Hungarian Plant Breeders (member, 2010-)
- Hungarian Association of Agricultural Sciences (member, 1986-1991)
- Hungarian Biological Society (member, 1986-)

## Awards:

- Veszprém Academic Committee Award (1986)

## Scholarships:

- János Bolyai Research Scholarship (2000-2003)
- Research Scholarship of the French Government (1989-1990)

## Participation in projects at the Agricultural Institute:

- OTKA K 104382 Introgression and molecular cytogenetic identification of wheatgrass (*Agropyron*) chromosomes in cultivated wheat
- NKFI K 139387 Development and molecular genetic/cytogenetic identification of wheat-perennial rye (*Secale cereanum*) introgression lines as new genetic resources for wheat breeding
